PROFESSIONAL SUMMARY

Hardworking and Enthusiastic college student working toward Btech in computer science and engineering .Seeking to use my superior knowledge of MERN stack Development, C++ , Data structure , C to effectively serve your company.Dedicated, hardworking and committed to becoming a dependable and valuable team member.

Skills

Data Structure	C++	HTML	CSS
JavaScript	React.js	Node.js	MongoDB
DBMS	C	Express.js	Problem Solving

EXPERIENCE

Web development Intern at Oasis Infobyte

July 2023 - August 2023

During this internship, I had the incredible opportunity to work on diverse projects like Temperature converter,Portfolio website and landing page. From crafting responsive designs to implementing interactive features, I've developed a deep understanding of front-end development.

Web development Intern at Playbees Technology

January 2024 - Present

During this internship, I had the incredible opportunity to work on diverse projects on Multiple Payment Gateway Integration.From crafting responsive designs to implementing interactive features, I've developed a deep understanding of front-end and back-end development.

Education

BTECH Computer Science and Engineering,
Graduation Year :- 2025, CGPA :- **8.7**,
Tulas Institute, Dehradun

PROJECTS

Notebook.io

January 2024

- Developed Notebook.io, a note-taking platform using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Enabled users to sign up, log in, add, delete, and update notes for efficient organization.
- Ensured data security and user authentication through Node.js and Express.js.
- Stored user notes reliably using MongoDB for scalability and performance.
- Created a user-friendly interface with React.js for seamless navigation and interaction.
- Project Link :- [Notebook.io](#)

Chat-e-fy.io

December 2023

- Created chat-e-fy.io, a real-time chat app for global communication.
- Designed a user-friendly interface with HTML, CSS, and JavaScript.
- Developed backend functionality using Node.js and Express.js.
- Enabled real-time messaging using Socket.IO.
- Allowed users to connect globally by simply entering their name.
- Project Link :- [Chit-chat](#)

NewsBuzz

December 2023

- Developed NewsBuzz, a React.js news application delivering daily updates from the News API.
 - Integrated infinite scroll for seamless browsing through a diverse range of news articles.
 - Implemented a top loading bar for visual feedback during content loading.
 - Designed a user-friendly interface optimized for readability and ease of navigation.
 - Utilized the News API to provide users with a comprehensive selection of current news articles.
-

CERTIFICATIONS

- Problem solving, HackerRank
 - CSS, HackerRank
 - Node.Js, RCPL India
-

ACHIEVEMENTS/AWARDS

- 1st position in 24 hrs Hackathon
- 2nd position in 2 hrs Coding competition

November 2023

April 2023
